## "Simply Havin"

*[Pos]*

As we go clubbin  
Me and my peoples we be lookin and we buggin  
off these ladies talkin bout no dancefloor rubbin  
'til we supply 'em with at least two to three mixed drinks from the bar  
They must be out they mind, them rookies get dismissed  
Cause it ain't hard to find, the ladies that can move it  
to the latest bassline, attached to the drum  
that'll set it off and make the local DJ a star  
But can I get a boost from the bass and the treble?  
This record ain't for soothin but for raisin blood levels  
We simply havin fun but know that some don't like the music  
That it promotes rappin, and global gun-clappin  
But still promoters packin in the clubs where I'm at  
Plus everywhere I go so just realize the fact  
That we won't be denied that respect you try to hide  
Shit this ain't rock'n'roll - ("cause the rap is in control" *[Q-Tip]*)
